#### Methodology

On behalf of Enterprise Minnesota, Meeting Street Insights is pleased to present the key findings from the 15<sup>th</sup> annual survey of manufacturing executives in Minnesota. The survey was conducted August 16 through September 14, 2023, among 400 manufacturing executives; it has a margin of error of <u>+</u>4.9%. Respondent titles included owners, CEOs, CFOs, COOs, presidents, vice presidents, and managing officers.

Rob Autry is the founder of Meeting Street Insights, a public opinion research firm based in Charleston, SC, and has been the lead researcher for all 15 surveys.

#### **Minnesota Initiative Foundations**

We also did an oversample to attain 50 interviews with manufacturers in each of the six Minnesota Initiative Foundation regions.

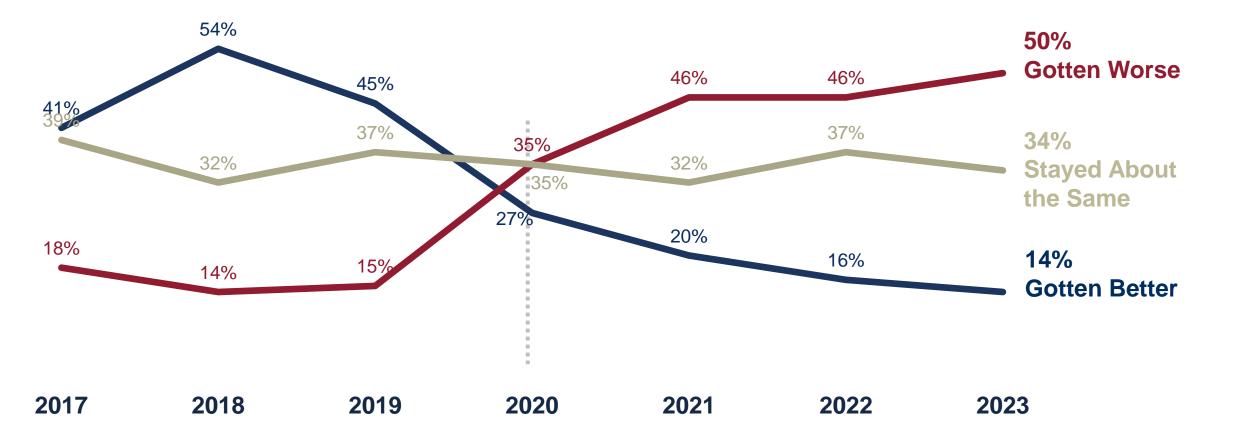

# States of Manufacturing®

## Key Fall 2023 Findings

## The percentage of manufacturers who think the business climate has gotten worse has increased to its highest level yet.

"Thinking about the business climate in Minnesota compared to say five years ago, would you say the business climate has gotten better, gotten worse or stayed about the same?"

# States of Manufacturing®

# Concerns with the MN Legislature's Actions

### Business executives are very concerned about the recent state legislative session, especially the paid leave requirements.

"Thinking about some of these issues, I will read you a few short descriptions of recent developments coming out of the legislative session, and I want to know how concerned you are about this legislation and its effect on your business."

| The lack of small business exemption for paid leave, meaning small businesses will be forced to provide the same benefits as larger corporations | 56% Very |     | 77% |
|--|----------|-----|-----|
| The costs associated with funding the new paid family and medical leave program through a new payroll tax, split between employer and employee   | 47%      |     | 72% |
| The new requirements on an employer for paid sick and safe time  | 38%      |     | 68% |
| Cannabis in the workplace and limits on being able to regulate it  | 38%      |     | 60% |
| The new wage theft law that makes property owners and developers responsible for any wage theft by construction subcontractors                   | 20%      | 44% |     |
| The ban on non-competes  | 15%      | 35% |     |

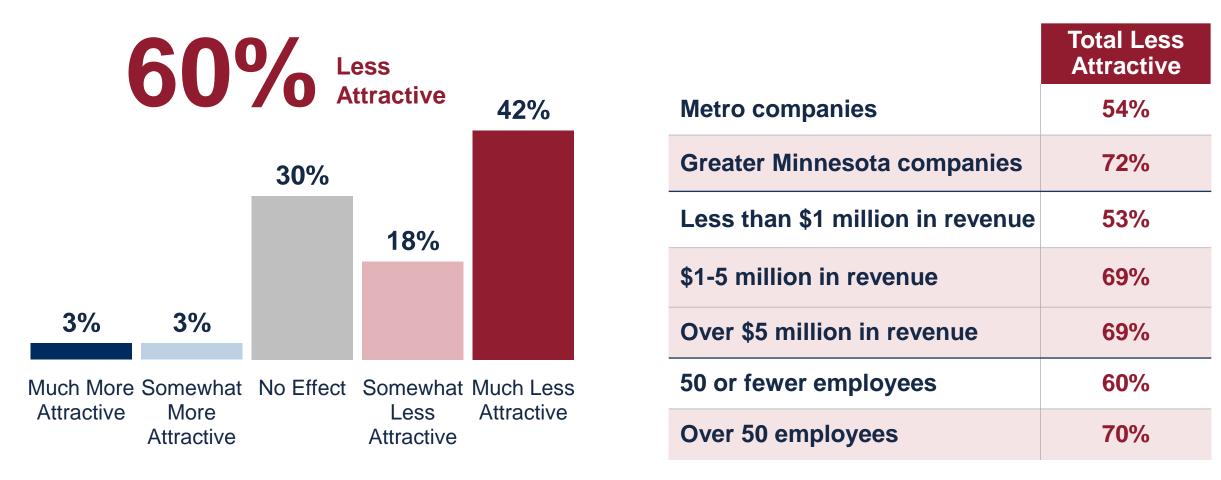

### There are solid majorities of manufacturers who are worried about most of this new legislation.

Total Worried by Company Revenue and Size (50%+ Items Highlighted)

|   | Less than<br>\$1 Million<br>Revenue | Between<br>\$1-\$5 Million<br>Revenue | Over<br>\$5 Million<br>Revenue | 50 or Fewer<br>Employees | Over 50<br>Employees |
|---|-------------------------------------|---------------------------------------|--------------------------------|--------------------------|----------------------|
| Lack of small business exemption for paid leave           | 78%                                 | 87%                                   | 79%                            | 82%                      | 60%                  |
| Costs associated with funding<br>family and medical leave | 72%                                 | 84%                                   | 79%                            | 75%                      | 70%                  |

## Most manufacturers think the new legislation has made the state less attractive for businesses.

"Do you think these legislative developments have made Minnesota more attractive or less attractive for businesses, or does it have no real effect one way or the other?"

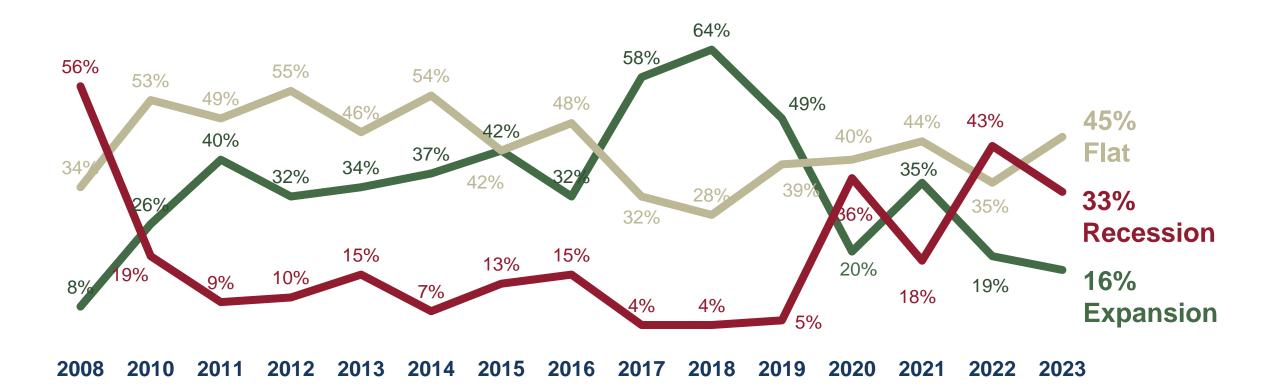

# States of Manufacturing®

## **Business Climate/Economy**

#### Recessionary fears have eased some, but economic stagnation is rising.

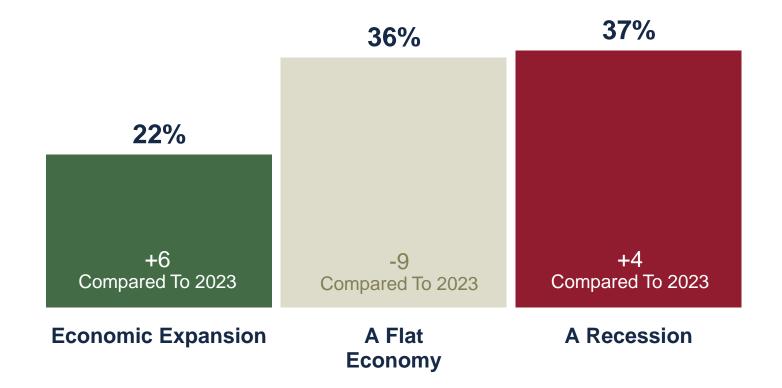

"And, even though we only have a few months left in 2023, as you think about this year, 2023, as a whole, do you think this year will be one of economic expansion, a flat economy, or a recession?"

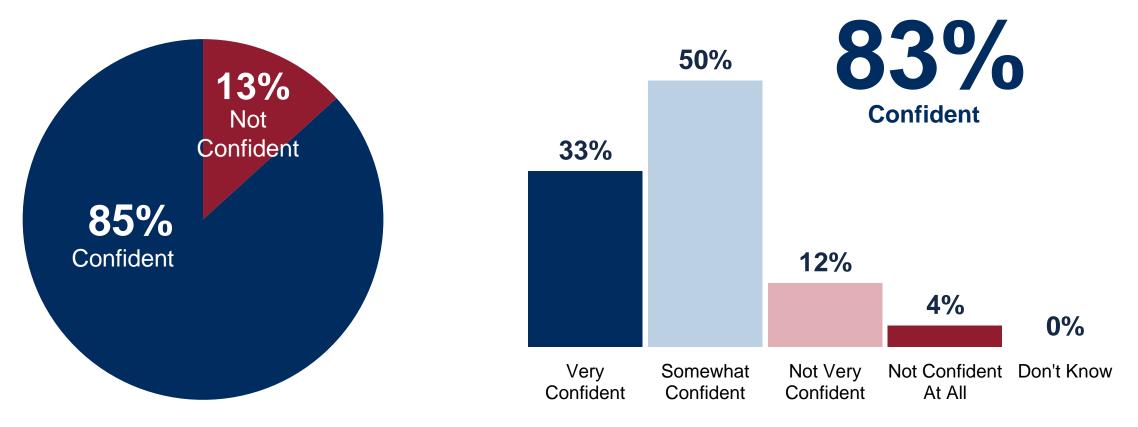

#### Manufacturers aren't thinking 2024 is going to be much better.

"And, what about **next year**? If you had to make a projection about the year 2024, do you think 2024 as a whole will be a time of economic expansion, a flat economy, or a recession?"

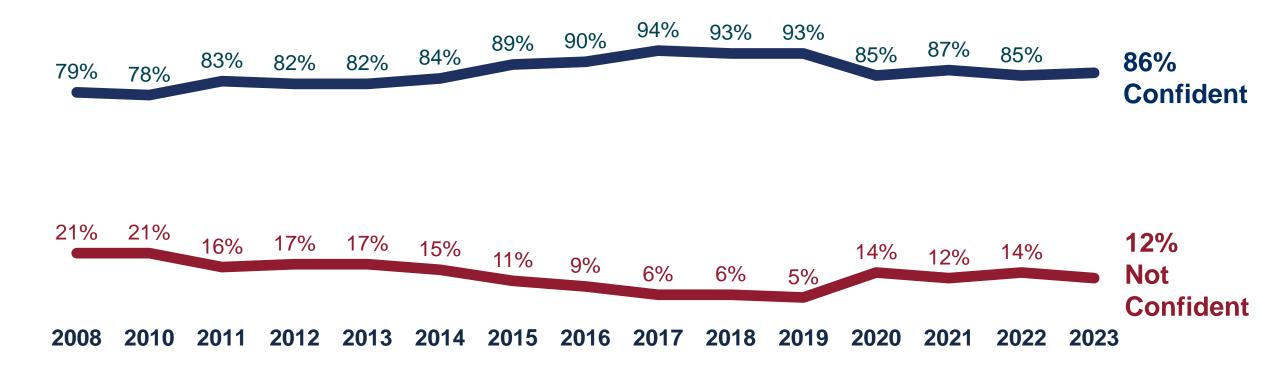

### Most manufacturers feel confident in their ability to withstand an economic downturn, even those who expect a recession this year.

"How confident are you that your company could withstand an economic downturn in the next year?" Among Those Who Expect a Recession in 2023

## While most manufacturers are still confident about the future, the levels are not back to the high we saw before the pandemic.

"From a financial perspective, how do you feel right now about the future for your company?"

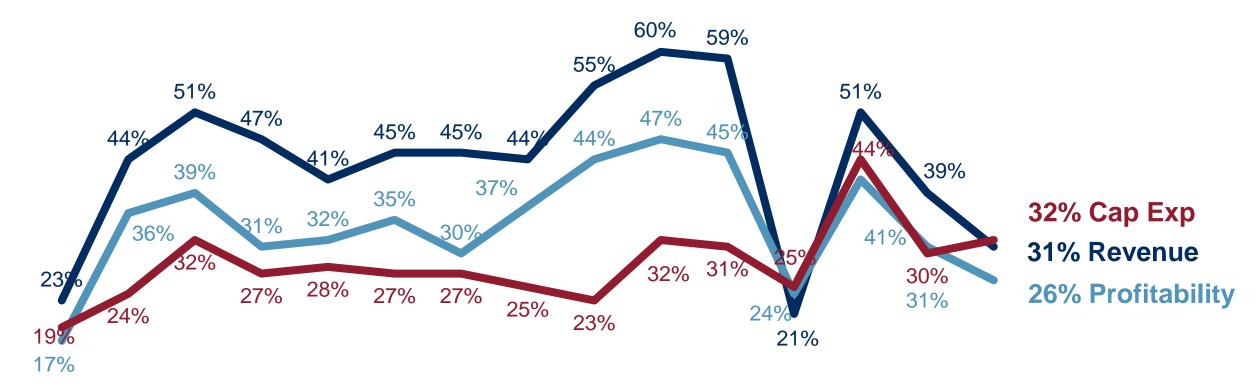

#### **Confidence remains lowest among smaller manufacturers.**

#### % Confident In Company's Future

|                                  | 2019 | 2020 | 2021 | 2022 | 2023 |
|----------------------------------|------|------|------|------|------|
| Metro companies                  | 93%  | 87%  | 89%  | 85%  | 89%  |
| Greater Minnesota companies      | 93%  | 82%  | 85%  | 83%  | 81%  |
| Less than \$1 million in revenue | 93%  | 78%  | 81%  | 75%  | 75%  |
| \$1-5 million in revenue         | 91%  | 88%  | 87%  | 89%  | 88%  |
| Over \$5 million in revenue      | 95%  | 90%  | 95%  | 96%  | 99%  |
| 50 or fewer employees            | 93%  | 83%  | 84%  | 83%  | 84%  |
| Over 50 employees                | 94%  | 89%  | 97%  | 92%  | 95%  |

## Manufacturers are expecting even fewer increases in their key business metrics, nearing the 2020 low marks.

Percent of Manufacturers Expecting Increases in 2023 for...

2008 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023

#### State of Manufacturing

#### Attracting workers and health care costs top the list of concerns.

**Concerns Ranked** by % Concern (8-10)

|   |     | Changed<br>Since 2022 |
|---|-----|-----------------------|
| Attracting qualified workers              | 44% | -9                    |
| The costs of health care coverage         | 43% | +2                    |
| Overall inflation                         | 38% | -17                   |
| Costs of employee salaries and benefits   | 36% | -5                    |
| Retaining qualified workers               | 35% | -8                    |
| Recession                                 | 31% | -10                   |
| Developing future leaders                 | 29% | +1                    |
| Data breaches and cybersecurity           | 24% | Not Asked             |
| Incoming and outgoing supply chain issues | 22% | -26                   |
| Implementing automation                   | 7%  | Not Asked             |

# States of Manufacturing®

## Top Concerns/Workforce

#### Workforce concerns are higher for businesses with 11+ employees, while inflation is most concerning for smaller businesses. Health care costs are a concern for all.

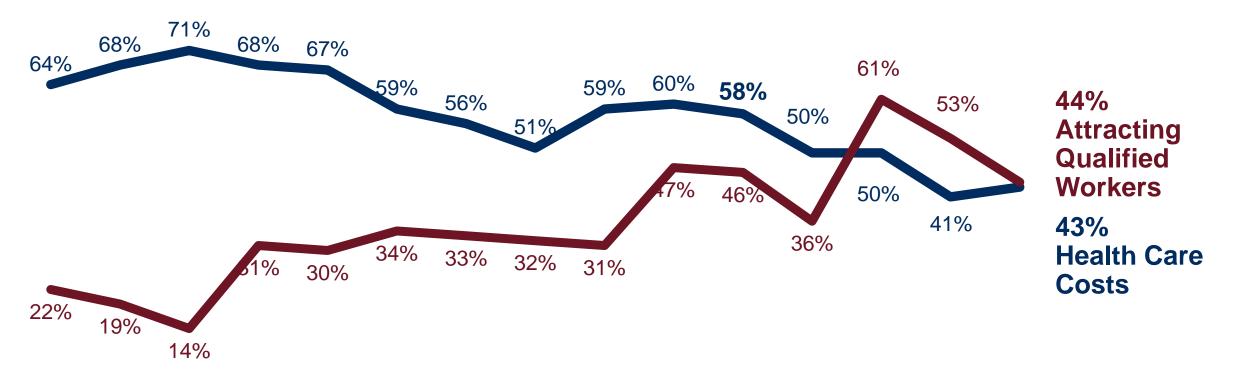

Concerns (8-10) by Employee Size (40%+ Items Highlighted)

|   | 1-10 Employees | 11-50 Employees | 50+ Employees |
|---|----------------|-----------------|---------------|
| Attracting qualified workers              | 38%            | 58%             | 46%           |
| The costs of health care coverage         | 45%            | 41%             | 42%           |
| Overall inflation                         | 47%            | 35%             | 18%           |
| Costs of employee salaries and benefits   | 34%            | 44%             | 34%           |
| Retaining qualified workers               | 31%            | 41%             | 35%           |
| Recession                                 | 38%            | 24%             | 25%           |
| Developing future leaders                 | 26%            | 32%             | 36%           |
| Data breaches and cybersecurity           | 24%            | 21%             | 24%           |
| Incoming and outgoing supply chain issues | 27%            | 21%             | 11%           |
| Implementing automation                   | 5%             | 10%             | 9%            |

## Attracting workers has declined steeply since 2021, while health care costs remain a big concern.

% Concerned (8-10) Over Time

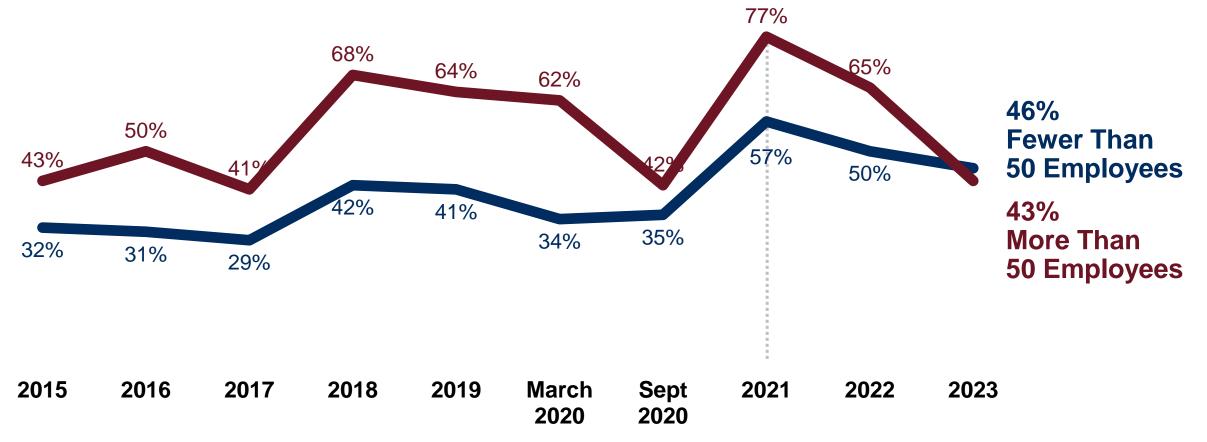

2008 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 2020 2021 2022 2023

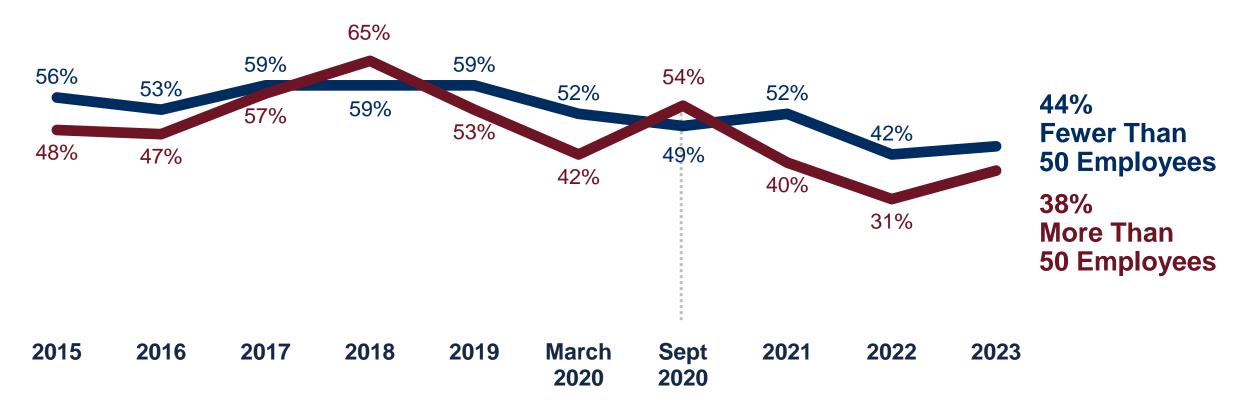

## Attracting workers has declined as a concern since 2021 among both smaller and larger companies (but especially with larger ones).

Attracting Qualified Workers - % Concerned (8-10)

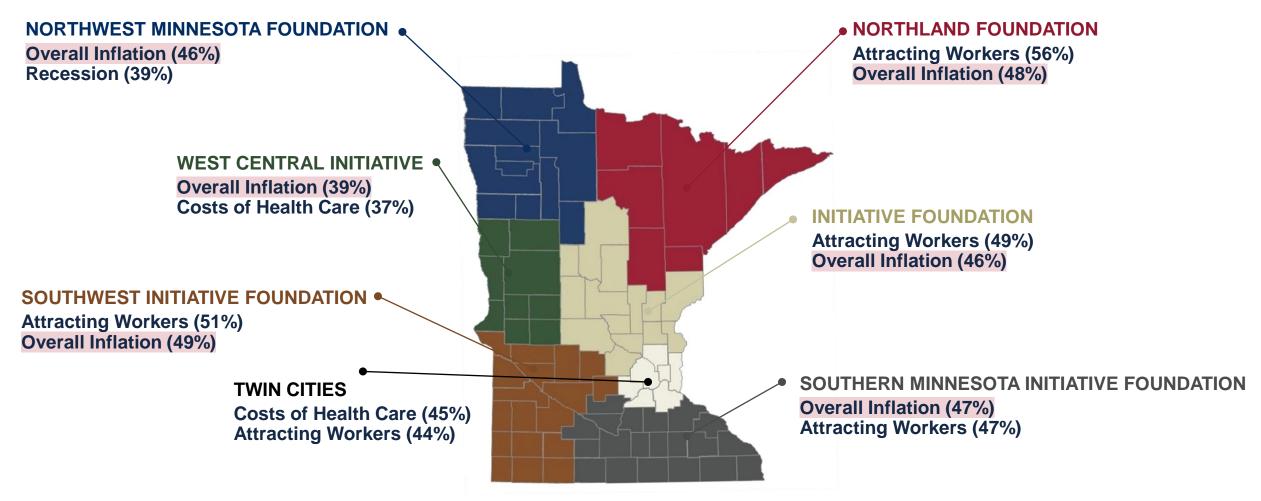

Health Care Costs - % Concerned (8-10)

#### Inflation is a big concern outside the metro area.

Top Five Concerns by Foundation (% 8-10 Concern)

## Going forward, workforce, inflation, and costs are seen as the biggest challenges to growth.

"What would you say are the one or two biggest challenges your company is facing that might negatively impact future growth?"

| Attracting and retaining a qualified workforce  |     | 39% |
|---|-----|-----|
| Inflation                                       |     | 32% |
| Increasing costs of materials for your products |     | 31% |
| Increasing costs of wages                       | 15% |     |
| Unfavorable business climate                    | 14% |     |
| Cost of health care insurance                   | 14% |     |
| Rising interest rates                           | 8%  |     |
| Cost or availability of capital to invest       | 6%  |     |
| Applying automation                             | 2%  |     |

### Larger and higher revenue manufacturers say their biggest challenge is workforce issues, while smaller companies also cite increasing costs.

"What would you say are the one or two biggest challenges your company is facing that might negatively impact future growth?"

|   | Less than<br>\$1 Million<br>Revenue | Between<br>\$1-\$5 Million<br>Revenue | Over<br>\$5 Million<br>Revenue | 50 or Fewer<br>Employees | Over 50<br>Employees |
|---|-------------------------------------|---------------------------------------|--------------------------------|--------------------------|----------------------|
| Attracting and retaining a qualified workforce  | 30%                                 | 42%                                   | 53%                            | 36%                      | 58%                  |
| Inflation                                       | 33%                                 | 26%                                   | 30%                            | 30%                      | 33%                  |
| Increasing costs of materials for your products | 36%                                 | 32%                                   | 18%                            | 32%                      | 16%                  |
| Increasing costs of wages                       | 14%                                 | 19%                                   | 17%                            | 16%                      | 12%                  |
| Unfavorable business climate                    | 14%                                 | 14%                                   | 17%                            | 14%                      | 16%                  |
| Cost of health care insurance                   | 13%                                 | 14%                                   | 13%                            | 13%                      | 18%                  |
| Rising interest rates                           | 8%                                  | 9%                                    | 5%                             | 9%                       | 5%                   |
| Cost or availability of capital to invest       | 4%                                  | 7%                                    | 7%                             | 6%                       | 7%                   |
| Applying automation                             | 1%                                  | 2%                                    | 7%                             | 2%                       | 6%                   |

#### Increases in investment will go towards managing costs.

"For the entire year of 2023, do you expect an increased investment in any of the following areas?"

|                                   |     | Changed<br>Since 2022 |
|-----------------------------------|-----|-----------------------|
| Managing costs due to inflation   | 56% | -7                    |
| Growing revenue and profitability | 51% | -3                    |
| Maximizing productivity           | 50% | -1                    |
| Expanding sales within the USA    | 46% | +3                    |
| Staff development                 | 34% | 0                     |
| Systems and technology            | 30% | +1                    |
| Cybersecurity                     | 24% | +3                    |
| Automation                        | 19% | -3                    |
| Expanding sales globally          | 13% | -2                    |

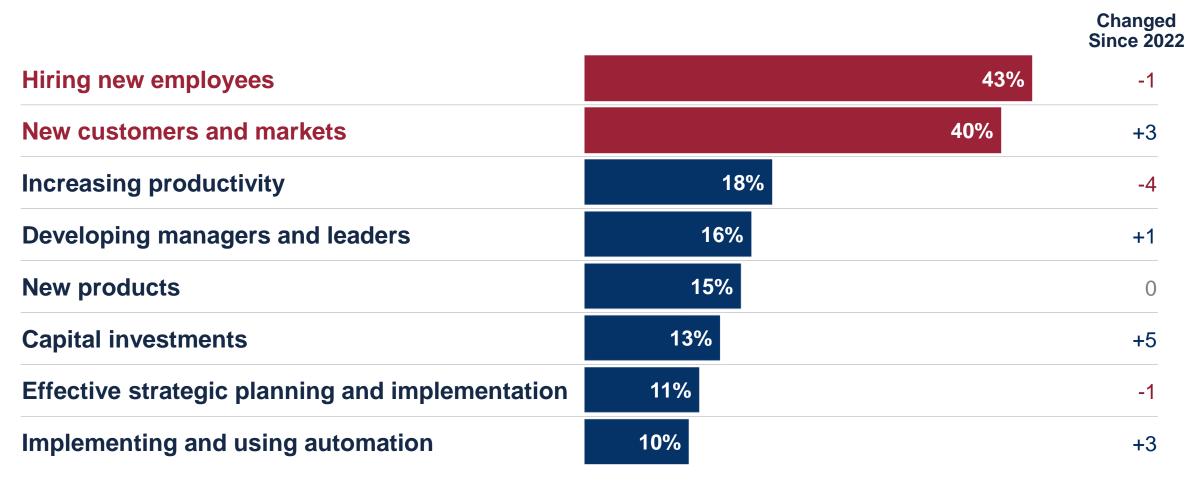

#### Higher revenue companies are making more investments in these areas.

## Finding new workers and new customers is still the most important driver of future growth.

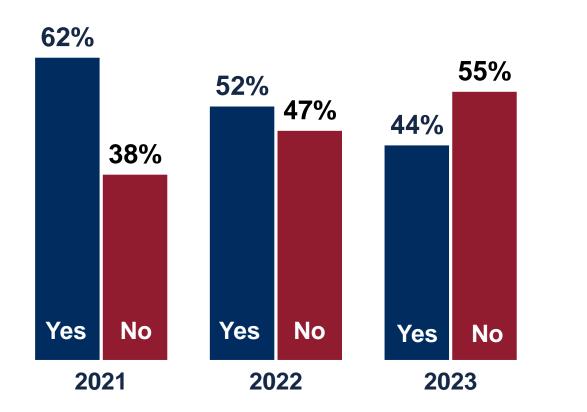

"Thinking ahead, what would you say are the two or three most important drivers of your company's future growth?"

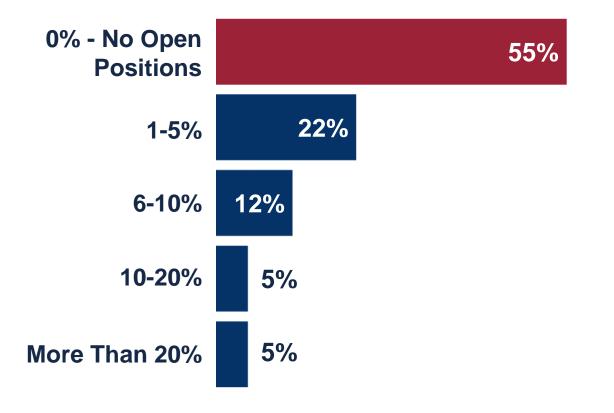

#### A majority of manufacturers now are not looking to hire and have fewer positions available.

"Does your company currently have positions that are open and are hiring?"

"And what percentage of positions are currently open?"

### Smaller companies are less likely to be hiring, but even larger companies don't have a lot of positions currently open.

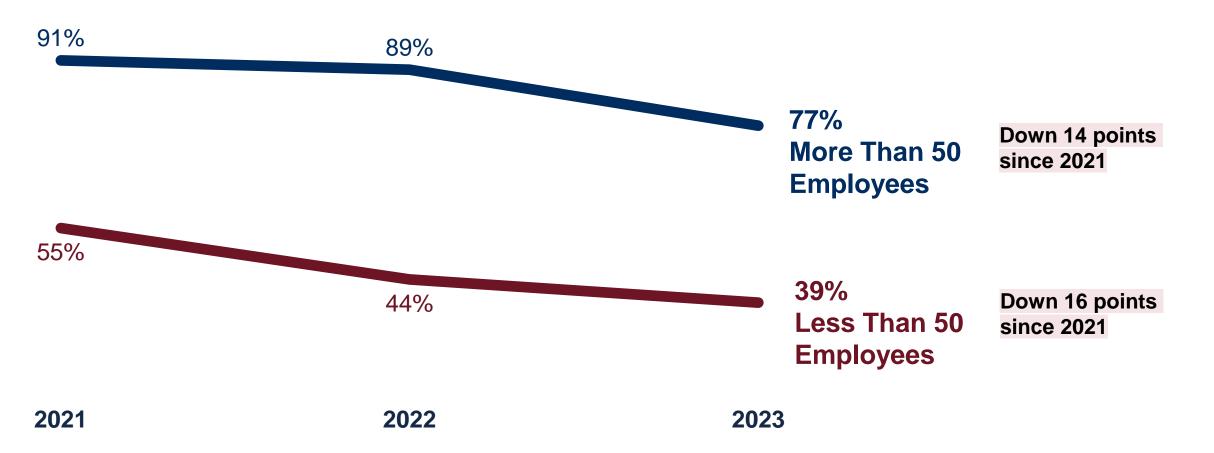

% of Positions Available (Top Choice Highlighted)

|                                  | 0% (No<br>Openings) | 1-5% | 6-10% | 10-20% | 20% + |
|----------------------------------|---------------------|------|-------|--------|-------|
| Metro companies                  | 52%                 | 22%  | 14%   | 6%     | 4%    |
| Greater Minnesota companies      | 57%                 | 23%  | 8%    | 4%     | 5%    |
| Less than \$1 million in revenue | 74%                 | 10%  | 4%    | 3%     | 7%    |
| \$1-5 million in revenue         | 54%                 | 19%  | 14%   | 9%     | 4%    |
| Over \$5 million in revenue      | 23%                 | 48%  | 20%   | 7%     | 1%    |
| 50 or fewer employees            | 60%                 | 18%  | 11%   | 6%     | 5%    |
| Over 50 employees                | 20%                 | 49%  | 22%   | 5%     | 4%    |

## While larger companies are driving the open position numbers this year, over the past two years, all manufacturers have seen a similar decline.

% Hiring by Employee Size

### Most manufacturers continue to tell us that attracting qualified candidates is a difficult task. But we do see some softening in the numbers.

"Overall, how difficult do you think it is to attract qualified candidates to manufacturers like you?"

|                      | 2021 | 2022 | 2023 |
|----------------------|------|------|------|
| TOTAL DIFFICULT      | 87%  | 84%  | 83%  |
| Very Difficult       | 55%  | 48%  | 40%  |
| Somewhat Difficult   | 32%  | 36%  | 43%  |
| Not Too Difficult    | 7%   | 7%   | 12%  |
| Not Difficult at All | 4%   | 6%   | 4%   |
| Don't Know/Not Sure  | 1%   | 2%   | 1%   |

#### Manufacturers want to be known as having a great work environment.

"When thinking about attracting and hiring new employees, what does your company want to be known for?"

| Work-Life Balance         | 59% |
|---------------------------|-----|
| <b>Competitive Salary</b> | 58% |
| Safe Work Environment     | 56% |
| Flexible Shifts           | 50% |
| Industry Leader           | 43% |
| Career Growth             | 42% |
| Great Benefits            | 40% |

Manufacturing Company Preparedness and Culture

### Work-life balance has increased in importance this year.

What Your Company Wants to Be Known for Over Time

|                       | 2022 | 2023 | Change<br>Since 2022 |
|-----------------------|------|------|----------------------|
| Work-Life Balance     | 56%  | 59%  | +3                   |
| Competitive Salary    | 62%  | 58%  | -4                   |
| Safe Work Environment | 62%  | 56%  | -6                   |
| Flexible Shifts       | 47%  | 50%  | +3                   |
| Industry Leader       | 43%  | 43%  | 0                    |
| Career Growth         | 38%  | 42%  | +4                   |
| Great Benefits        | 43%  | 40%  | -3                   |

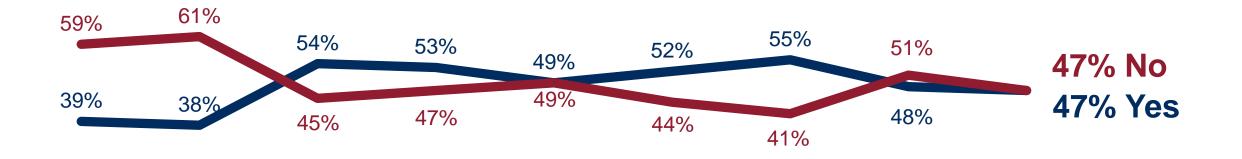

### Work environment is equally important across types of manufacturers.

### The percentage of manufacturers who have a formal strategic plan is down to its lowest level since 2016.

"On a different topic, does your company have a formal strategic plan?"

#### State Manufacturing

### Most smaller manufacturers say they don't have a formal strategic plan.

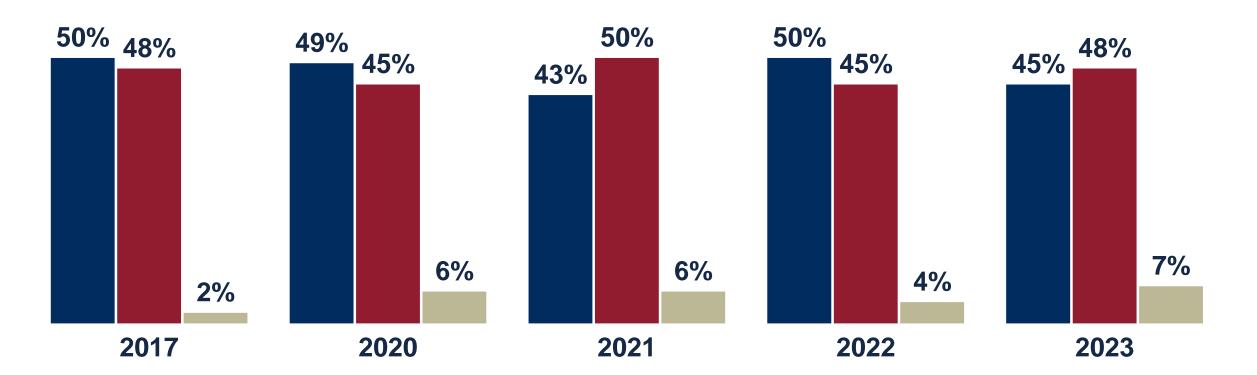

Formal Strategic Plan by Key Groups

|                                  | Yes | Νο  |
|----------------------------------|-----|-----|
| Less than \$1 million in revenue | 27% | 69% |
| \$1-5 million in revenue         | 53% | 43% |
| Over \$5 million in revenue      | 71% | 25% |
| 50 or fewer employees            | 42% | 52% |
| Over 50 employees                | 71% | 20% |

### Half of manufacturers say they have a succession plan.

"On a different topic, does your company's senior leadership have a succession plan?"

■ Yes ■ No ■ Don't Know

#### Smaller manufacturers are also less likely to have a succession plan.

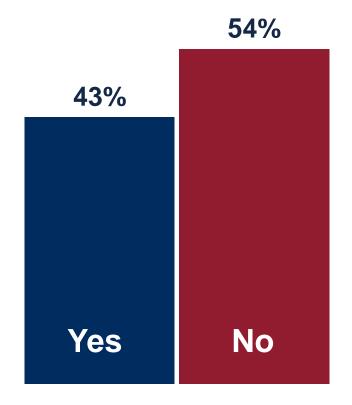

Succession Plan by Key Groups

|                                  | Yes | Νο  |
|----------------------------------|-----|-----|
| Less than \$1 million in revenue | 29% | 69% |
| \$1-5 million in revenue         | 47% | 49% |
| Over \$5 million in revenue      | 69% | 21% |
| 50 or fewer employees            | 40% | 55% |
| Over 50 employees                | 73% | 11% |

### Four out of ten manufacturers say they have a formal mission, vision, and values, with most of those being larger companies.

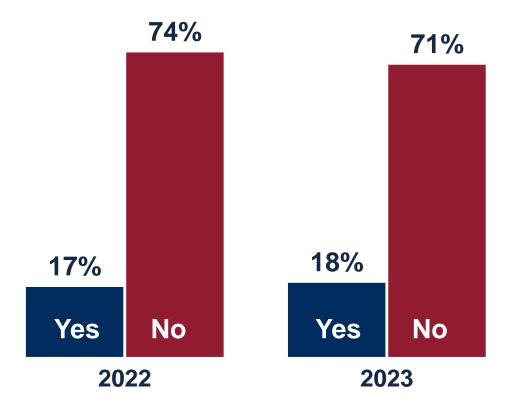

"Does your organization have a formal mission, vision, and values?"

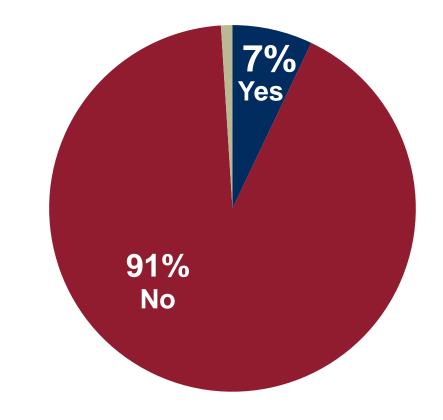

|                                  | Yes | No  |
|----------------------------------|-----|-----|
| Metro companies                  | 47% | 50% |
| Greater Minnesota companies      | 38% | 60% |
| Less than \$1 million in revenue | 17% | 82% |
| \$1-5 million in revenue         | 50% | 47% |
| Over \$5 million in revenue      | 75% | 24% |
| 50 or fewer employees            | 37% | 61% |
| Over 50 employees                | 82% | 13% |

#### Those who aren't ISO certified don't have plans to be.

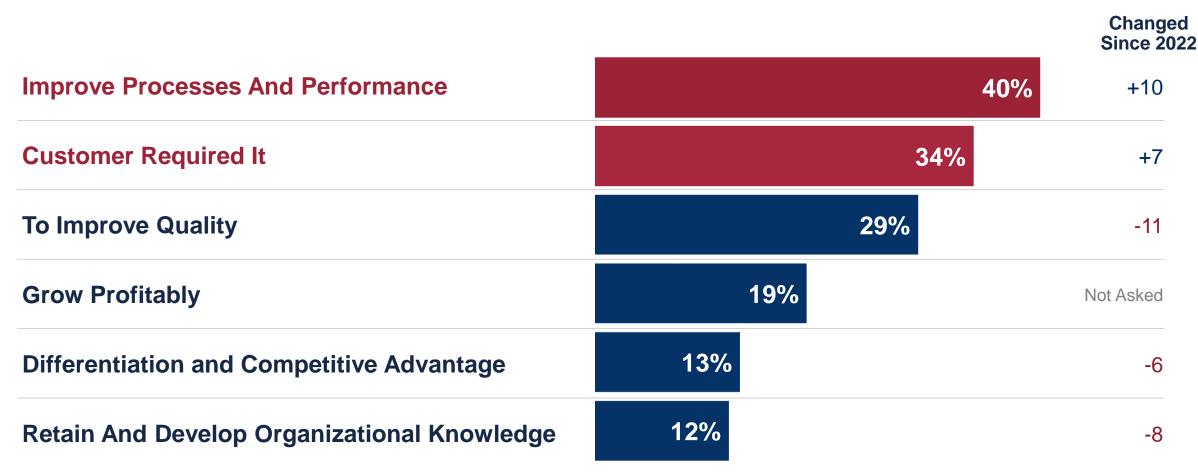

"Thinking about quality and business management systems certifications, is your company ISO certified?" "And is your company getting ISO certified or have a plan to become ISO certified?"(Among those who are not ISO certified)

### Among those who are certified, they cite improved performance, quality, or that a customer required it.

"Why have you implemented a quality/business management system? Please choose the top one or two reasons."

### **The Bottom Line**

### **The Bottom Line**

While fears of a recession appear to be fading, manufacturers of all sizes worry we're in a period of economic stagnation. It's clear from this survey data that this uncertainty is impacting their outlook on their business and impacting their decisions around hiring and investing.

### **The Bottom Line**

Additionally, manufacturers express serious concern about the changes enacted by the State Legislature in 2023, most notably the requirements for paid family and medical leave, paid sick and safe leave, and cannabis in the workplace. Not surprisingly, half of all manufacturers say business climate in Minnesota today is worse than it was five years ago.

### **The Bottom Line**

The main pain points for manufacturers in this year's survey are attracting qualified workers, the cost of health care coverage, and overall inflation. Inflationary concerns are down considerably from a year ago, while health care concerns have inched up a little. While workforce issues continue to reside at the top of the concern list, hiring has slowed – just 44% have positions open for hiring (down from 52% in 2022).

### **The Bottom Line**

 Many manufacturers tell us they are putting strategic planning on the back burner. Only 47% say they have a strategic plan in place and just 45% report having a succession plan (both are down from a year ago). Only 43% say their company has a formal mission, vision, and values.
